1. With the patient record open, select this globe icon at the top of the screen.

2. Select 'CERNER HIE' from the list of External Links.

3. In the box that opens, select 'yes' if you can confirm that you are accessing information to support the delivery of direct care.

Consent - LORENZO Web page Dialogue	×								
I confirm that I have a legitimate relationship with this patient/service user and need to access their records to support their direct heath or social care. I am aware that access to records within this system is audited.									
Yes No Cancel									

NB: You do not need to ask the patient for individual consent to view the Shared Care Record if you are directly involved in their care.
